Update of IEC-EN 60598-1: General Safety Requirements for Luminaires

Safety testing is very important to luminaires suppliers as unsafe luminaires may lead to electrical shocks or accidental fire. As a responsible supplier of luminaires, you should ensure that your products are safe and fully compliant with the applicable safety requirements. In January 2015, EN 60598-1: 2015 was published to supersede EN 60598-1:2008+A11:2009, which will be withdrawn in Oct. 2017.

Company Activity

Intertek Product Safety Forum 2015 in Australia

Product Intelligence is the focus of this year's Product Safety Information Forum, which will be held in Melbourne, Sydney and Brisbane. The forum will feature keynote speakers from the retail, manufacturing and regulatory fields, including the Australian Competition and Consumer Commission (ACCC) and the Electrical Regulatory Authorities Council (ERAC). The event will be another great opportunity for participants to discuss leading assurance practices with regulators and industry players in Australia.

[Tradegood Viewpoints] Global Sourcing Tips: In the event of Oil Price Fluctuations

price fluctuations.

In this day and age, with increased volatility in oil prices, nothing is certain. With oil prices directly impacting transportation costs, it's hard for manufacturers, wholesalers and retailers to avoid constant changes in supply-chain costs caused by oil

This new Tradegood Viewpoints article outlines the main sourcing strategies for buyers managing supply-chain costs during oil price hikes and drops. [\[More\]](#)
